

# EHMA 2024

Shaping and managing  
innovative health ecosystems

## InterRegSim

- a government mandated network for  
simulation-based learning in Norway

Benedicte Skjold-Ødegaard, InterRegSim  
Rolf Andre Oxholm, InterRegSim

5 - 7 June 2024 - Bucharest, Romania

Politehnica University of Bucharest, Bucharest, Romania

#EHMA2024

# What is simulation?

“A model of a real activity, created for training purposes or to solve a problem” \*

Skills training

Team training

Translational simulation

\* Cambridge dictionary, Cambridge University Press 2019

# Norwegian Healthcare

Founded on the principle of universal access

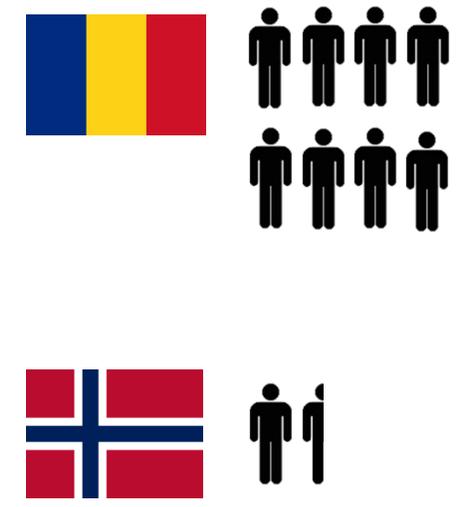

- General taxes
- National Insurance Scheme
- Public hospitals

# EUROPA

## Population pr 0.1 km<sup>2</sup>

# National Health and Hospital Plan 2020–2023

Summary

«Simulation is used actively in teaching and when teams perform drills together»

«The health trusts work together on developing and sharing simulation tools»

# The 4 health trusts

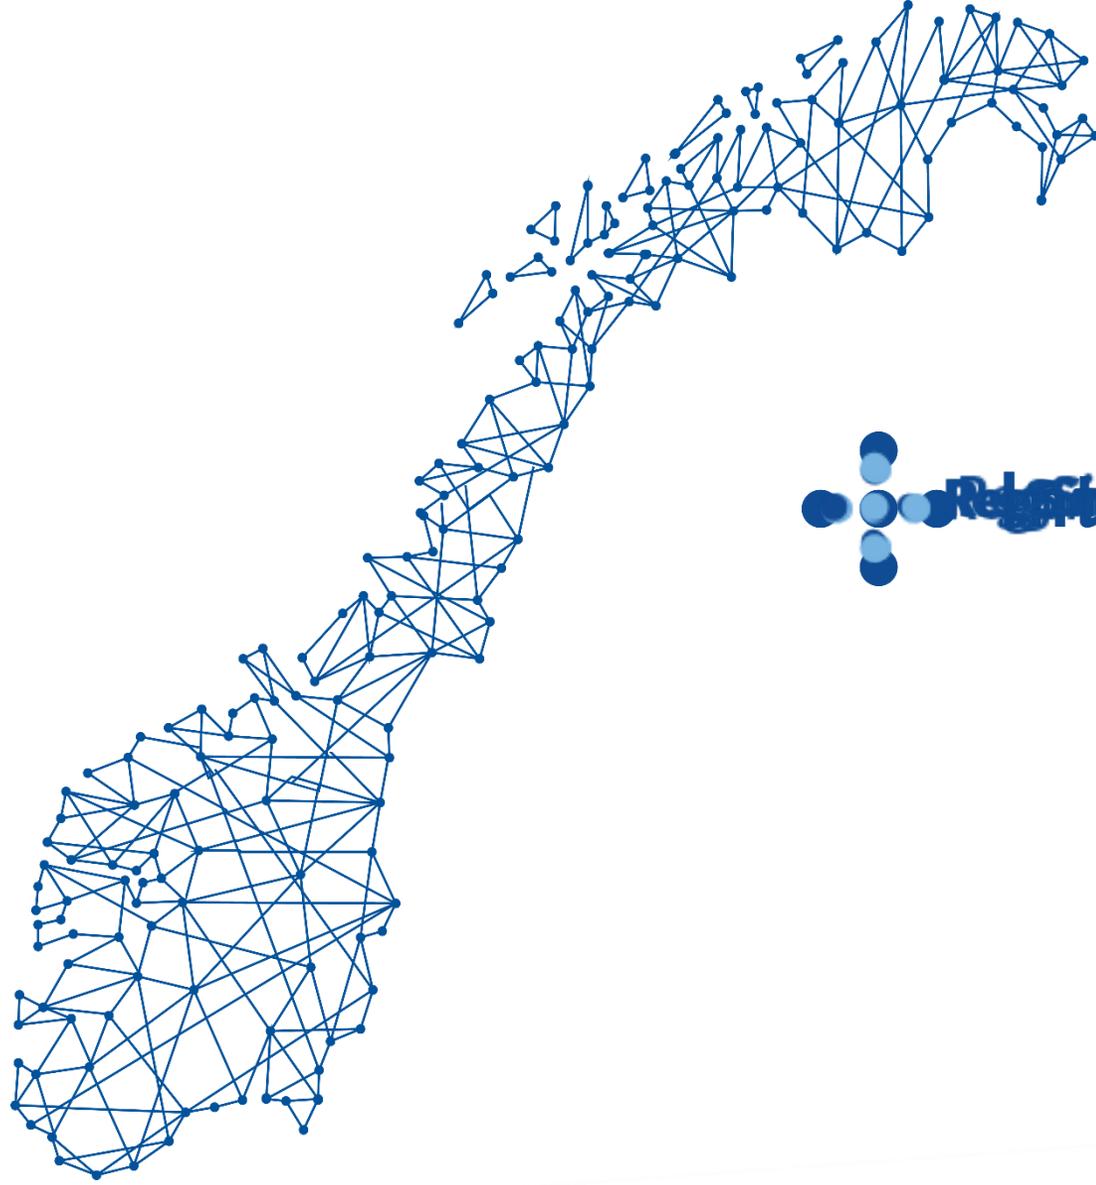

- North
- Middle
- South-East
- West

## RegSim

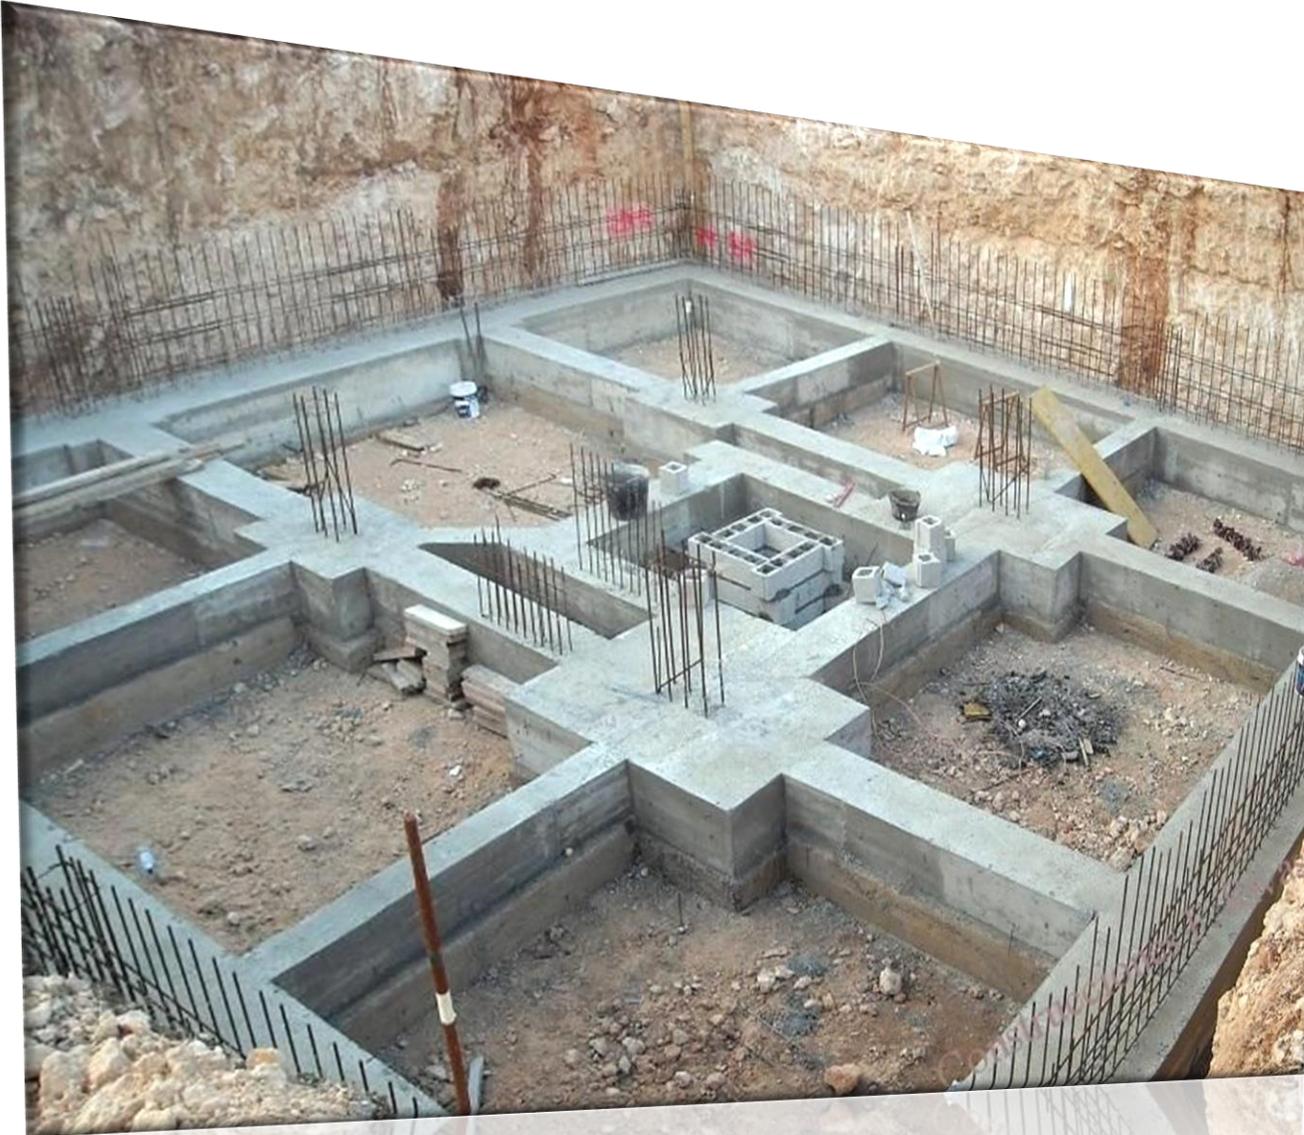

= regional coordinating unit  
for simulation

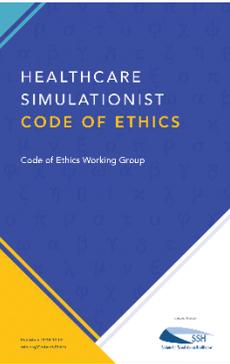

RegSim

- Clarify mandate
- Establish working processes
- Initiate deliveries

# The first “deliveries”

# Moving from here...

Products

Recommendations

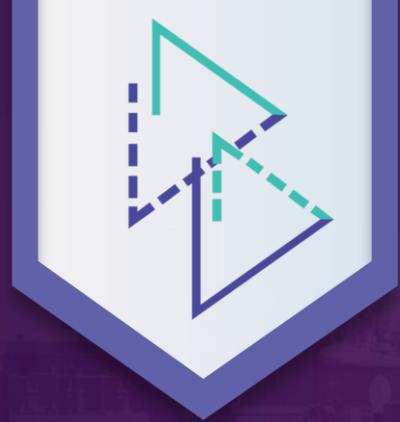

Involvement

# Goals

Increased  
**patient**  
safety

Increased  
**healthcare**  
**personell**  
(psychological)  
safety

# EHMA 2024

Shaping and managing  
innovative health ecosystems

# Thank you
