HEALTH MANAGEMENT
EXCELLENCE AWARD

TEMPLATE APPLICATION FORM

Here below we provide the application form template. This template is for information only and to help you prepare your application. To submit your intervention, you are asked to fill in an online form at this link. Only online applications will be accepted.

If you have any questions about this Award or the application process, please email us at maral.aghababai@ehma.org

Applicant information

First and last name
Job title
Organisation
Email
Phone number (including country code)
Name of the Organisation/Entity you are making this submission for

Project overview

Title of the intervention
Under which category are you submitting your intervention?   *Healthcare facility level: This category acknowledges initiatives, interventions or policies, that advance operational processes, resource allocation and technological implementation within healthcare institutions*   *Health system level: This category encompasses macro- and meso-scale policy, governance and strategic reforms that systemically amplify the structure, financing and service integration of healthcare systems*
Country (and region, where applicable) covered by your intervention
Implementation period
Background & rationale *Briefly describe the healthcare challenge or systemic inefficiency addressed by the intervention. Provide relevant epidemiological, organisational, or policy context and justify the need for the initiative.*
Objectives *State the primary aims of the intervention, outlining specific goals and anticipated outcomes.*

Implementation and outcomes

Methods
Detail the intervention's design and implementation strategy, including the approach taken, key stakeholders involved and any digital, organisational, or policy-driven innovations. Specify whether the initiative is a pilot, an ongoing programme, or a system-wide reform.

Results
Present measurable attained outcomes demonstrating impact, supported by relevant empirical data. Include improvements in:
- *Health outcomes (e.g. patient recovery rates, reduced hospitalisation, mortality reduction).*
- *Service efficiency (e.g. workflow optimisation, reduced wait times, enhanced care coordination).*
- *Cost-effectiveness (e.g. financial sustainability, resource allocation improvements).*
- *Resource utilisation (e.g. optimised material use, waste reduction, process efficiency).*

Sustainability and future potential

Scalability and replicability
Provide information on whether the intervention has been replicated in other healthcare settings or institutions. If not, are there plans or ongoing efforts to adapt the intervention to additional contexts? Include details on any steps taken to facilitate broader implementation.

Sustainability
Describe the current state of the intervention's long-term viability. Is it supported by stable financial mechanisms? How has it been integrated into the workforce and institutional structures? Outline any ongoing strategies or frameworks in place to maintain its impact over time.

Innovation and contribution
Explain what aspects of the intervention are new or ground-breaking. Has it introduced digital innovations, novel methodologies, or policy changes that have led to measurable improvements in healthcare delivery? Provide concrete examples of the unique contributions it makes to the field.

Under my own responsibility, I confirm that this submission has been approved by the organisation/entity I am representing.

I confirm that at least one representative of the organisation/entity will register to attend and present this intervention at the European Health Management Conference 2025. Not registering to the Conference will result in the intervention being excluded from the Award.
