precepts (rules), the way is short if
one follows patterns - Seneca**

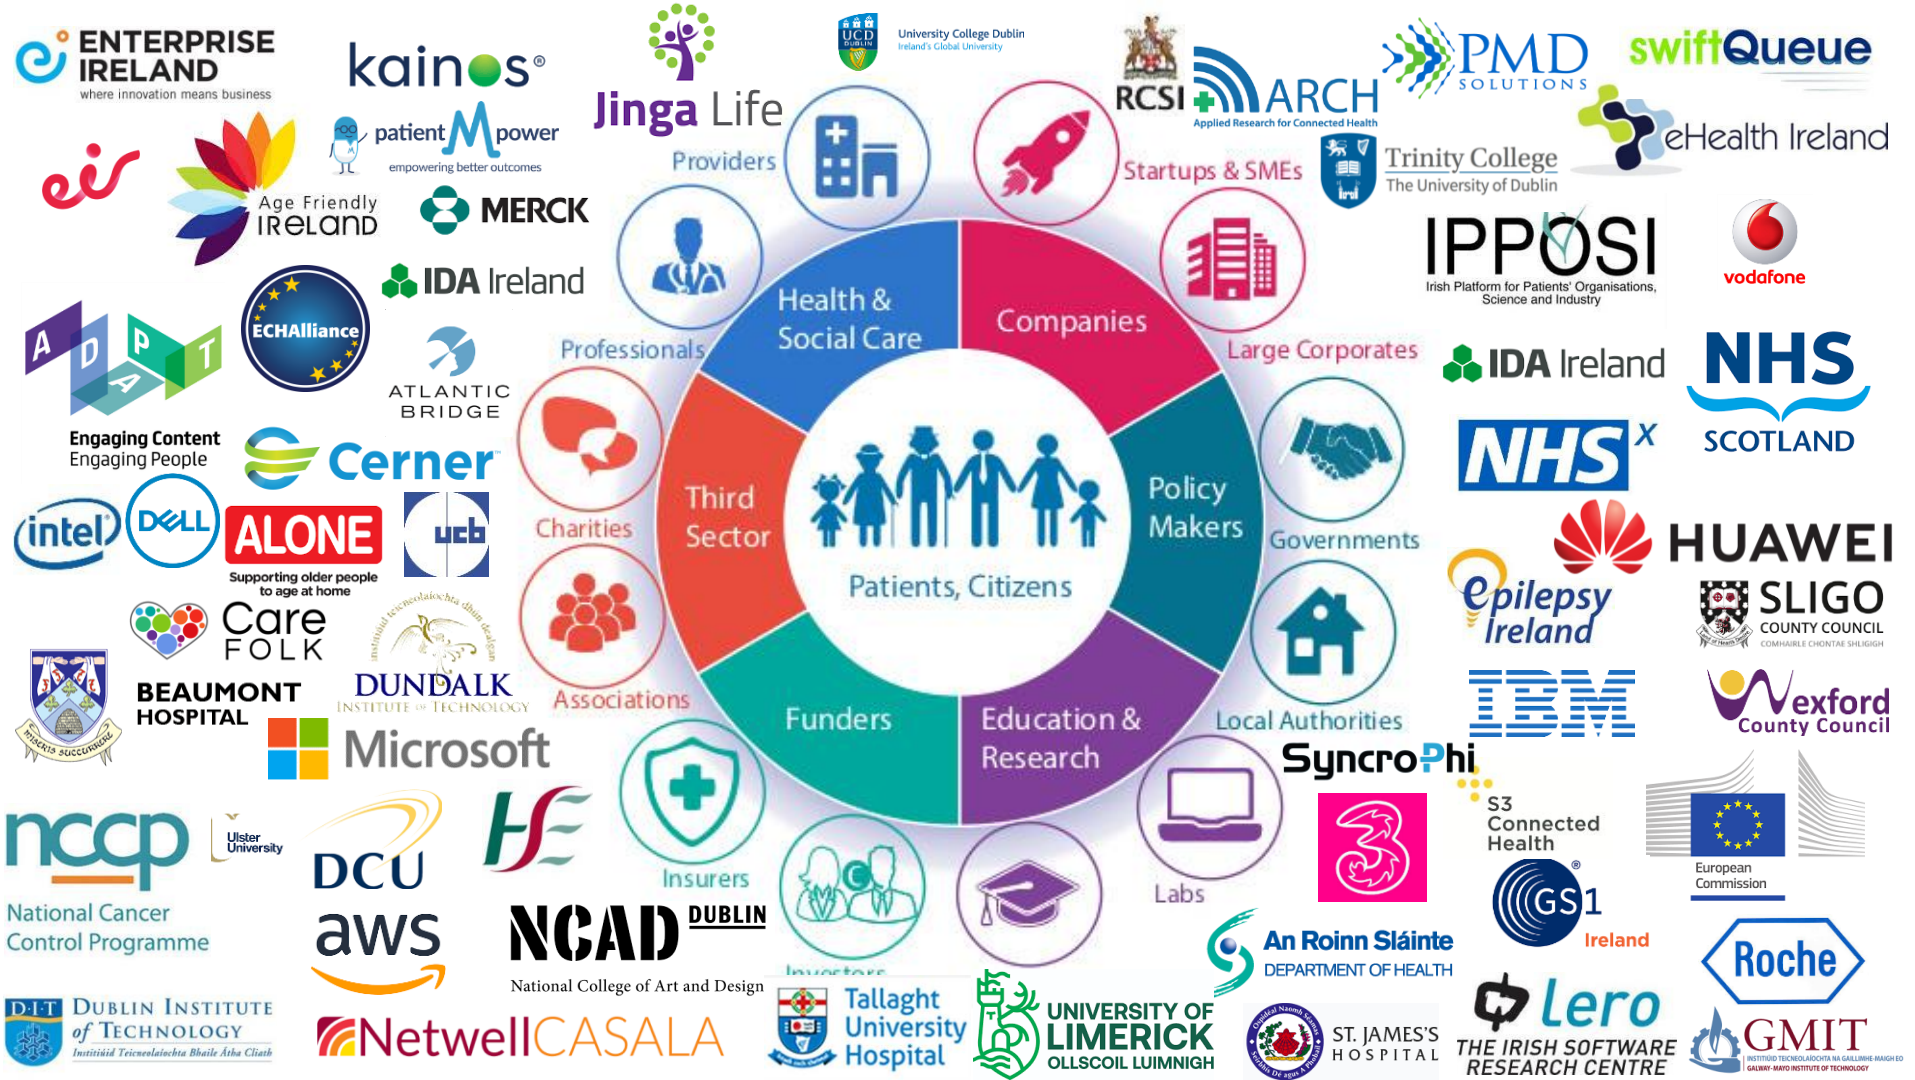

Open Innovation 2.0: A new paradigm/mode

Leapfrog via Open Innovation 2.0

Open Source SPINE - OpenEMR

The screenshot displays the OpenEMR interface for a patient named Martin Curley. At the top, there's a header with the patient's name, DOB (23/06/1912), Age (111), and a search bar. Below this is a navigation bar with tabs for Patient Finder and Dashboard. The main section is titled "Medical Record Dashboard - Martin Curley" and includes a sub-navigation bar with links to Dashboard, History, Report, Documents, Transactions, Issues, Ledger, External Data, and Modules. The dashboard is divided into several sections: Allergies (Iodine (Mild to moderate)), Medical Problems (Arthritis), Medications (Ibuprofen 400 MG Oral Tablet 400mg 1 in tablet t.i.d.), Prescriptions (a table with columns for Drug, Details, Qty, Refills, and Filled, showing Ibuprofen 400 MG Oral Tablet with 100 refills), Demographics (a tabbed section with Personal, Contact, Next of Kin, Social, and Health Services, showing personal information like Title, First Name, Birth Names, DOB, Medical Card Number, Sex, Gender Identity, Nationality, Language(s) Spoken, Translator Language, Marital Status, Sexual Orientation, Place of Birth, and Translation Required), Patient Portal / API Access (Portal Access and Credentials), ID Card / Photos (Patient Photograph), Recall (No Recalls), Appointments (Future and Recurring Appointments), Insurance, Messages, Disclosures, Amendments, Labs, and Vitals. The interface is clean and professional, with a light blue and white color scheme.
